COLORADO HIGHLIGHTS

There is no doubt about whether the Rockies of Colorado have earned their awe-inspired and beloved reputation. As you adventure on your Colorado Expedition, you'll discover for yourself the extraordinary glory of these mountain beauties.

You will spend your first few days getting to know this beautiful wilderness, exploring Estes Park in the Rocky Mountains on foot. You will reach incredible views at the peak of Twin Sisters, the shore of Chasm Lake, and the notorious Keyhole. You will then get to wade in the water that melted off the snow caps of the mountains you just climbed, learning to fly fish alongside your team.

Bidding Estes Park farewell, you will move on to the true very highest point of Rocky Mountain High Colorado. You will wake up hours before the sun, starting your trek up to the top of Mount Elbert, a 14er not for the faint of heart. Watch the sun rise from your spot above a sea of clouds as you push yourself up the strenuous climb. Don't worry, you will be beyond rewarded at the top.

Finally, you will embark on an overnight journey, taking on white water rapids. Rafting by day and camping alongside the river by night, you will fall asleep to the stars and the ebbing of the river. At the end of this journey, you will wake up for one more sunrise over the Great Sand Dunes, and enjoy the remaining time with your family of a team.

"Have you been half asleep? Or have you heard voices? I've heard them calling my name. Is this the sweet sound that calls the young sailors? The voice might be one in the same."
