WYOMING HIGHLIGHTS

There is something rare, special and untouched about the Tetons that stand tall in Wyoming. Adventurers all over the world feel them beckon, and come to understand their unique gift.

Throughout your Wyoming Expedition, you yourself will step into this gift. You will experience a backpacker's dream, making the trek to Titcomb Basin in the heart of the Wind River Range. You will be surrounded by alpine lakes, summer green meadows, and towering peaks. You will learn the ins and outs of backcountry camping, carrying everything you need as you live among the mountains.

With your mountain legs ready, you will then take yourself to the top. Wake up hours before sunrise to push yourself and summit Middle Teton, the third highest peak in the Teton Range. Look around you, and take in the lakes and trails below that you have explored to the fullest. Grand Teton National Park will offer you the top of the world, along with swims in crystal clear lakes and picnics on their shores.

Finally, you will embark on an overnight journey, taking on white water rapids. Rafting by day and camping alongside the river by night, you will fall asleep to the stars and the ebbing of the river.

"Have you been half asleep? Or have you heard voices? I've heard them calling my name. Is this the sweet sound that calls the young sailors? The voice might be one in the same."
